

# Mobile Tank Solution

---

Xeelas - Bredenoord

# What?

Parameters Bredenoord wanted to monitor

**Location**

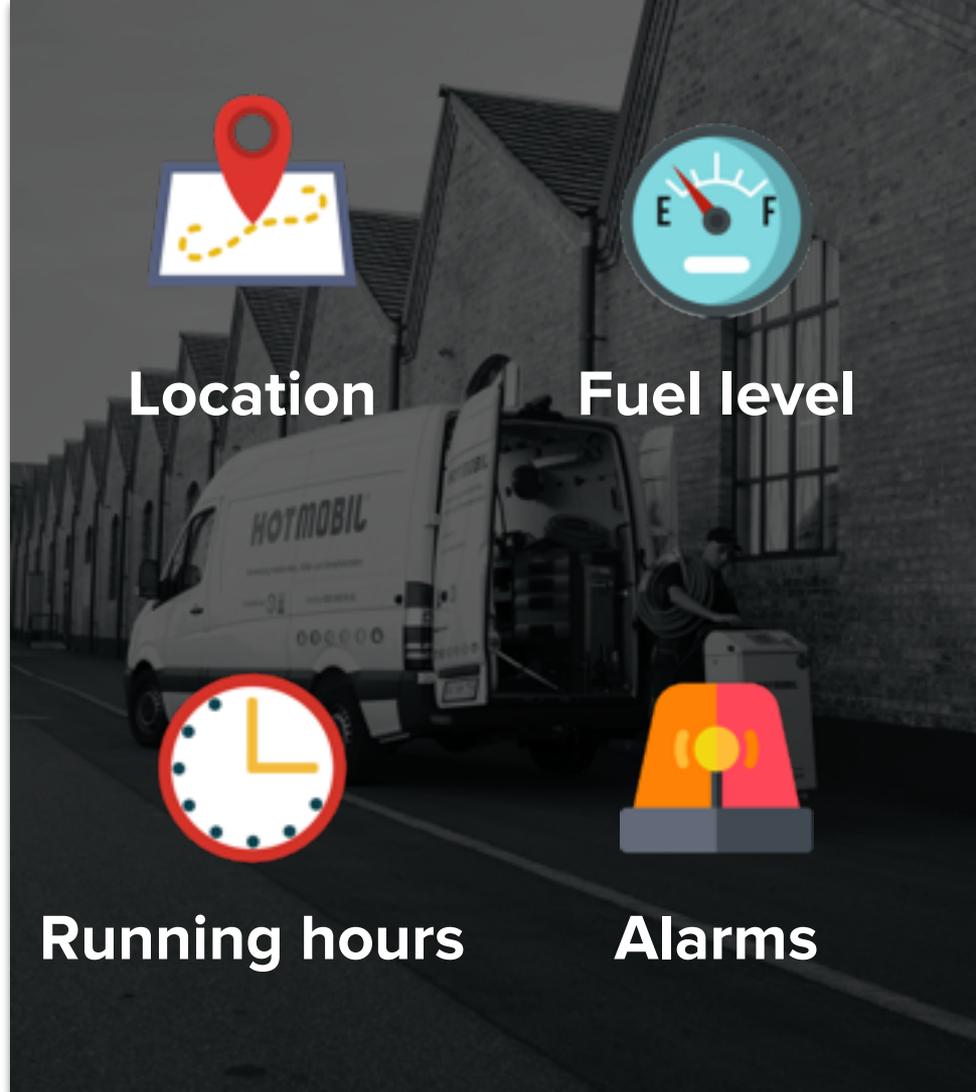

**Fuel level**

**Running hours**

**Alarms**

# S Series IP67

# Mobile Fuel Tank

Installation example

- Easy installable
  - Low power ultrasonic sensor
  - Solar powered 15+ years lifetime
  - Internal battery without sun lifetime 6 months
  - IP67 water resistant
-

# Portal

- Total fleet overview
- Visualization of data
- API available for integration with current system
- Connections with ERP systems available

**Bredenoord**

OUR ENERGY. YOUR POWER.

# Next Steps

- Power monitoring
  - Energy quality logging
  - Optimal machine usage
  - Carbon footprint trends
  - Emission reductions
-

# Lessons Learned

- Implementation is key
  - Product data management
  - We need the users
  - You're directing an orchestra
  - It's never finished
-

A man in a dark jacket is working on a large industrial machine. The machine has two large cylindrical components with circular openings. The man is looking down at the machine, and his hands are near the bottom of the machine. The background is dark and industrial.

# Thank you
